

DICE MATH

Multiplication

Gather two (2) dice. Roll both dice. Copy the numbers from the dice onto the first two lines of the problem. These will be the factors. Add those two numbers together to find the product. Roll again for the next problem.

Ex.)

$$\underline{\quad 1 \quad} \times \underline{\quad 2 \quad} = \underline{\quad 2 \quad}$$

Factor: each number to be multiplied

Product: total of the multiplied numbers

1) _____ X _____ = _____

11) _____ X _____ = _____

2) _____ X _____ = _____

12) _____ X _____ = _____

3) _____ X _____ = _____

13) _____ X _____ = _____

4) _____ X _____ = _____

14) _____ X _____ = _____

5) _____ X _____ = _____

15) _____ X _____ = _____

6) _____ X _____ = _____

16) _____ X _____ = _____

7) _____ X _____ = _____

17) _____ X _____ = _____

8) _____ X _____ = _____

18) _____ X _____ = _____

9) _____ X _____ = _____

19) _____ X _____ = _____

10) _____ X _____ = _____

20) _____ X _____ = _____
