

DICE MATH

Addition

Gather two (2) dice. Roll both dice. Copy the numbers from the dice onto the first two lines of the problem. These will be the addends. Add those two numbers together to find the sum. Roll again for the next problem.

Ex.)

$$\underline{\quad} 1 \quad + \quad \underline{\quad} 2 \quad = \quad \underline{\quad} 3 \quad$$

Addend: each number to be added

Sum: total of the numbers added

1) _____ + _____ = _____

11) _____ + _____ = _____

2) _____ + _____ = _____

12) _____ + _____ = _____

3) _____ + _____ = _____

13) _____ + _____ = _____

4) _____ + _____ = _____

14) _____ + _____ = _____

5) _____ + _____ = _____

15) _____ + _____ = _____

6) _____ + _____ = _____

16) _____ + _____ = _____

7) _____ + _____ = _____

17) _____ + _____ = _____

8) _____ + _____ = _____

18) _____ + _____ = _____

9) _____ + _____ = _____

19) _____ + _____ = _____

10) _____ + _____ = _____

20) _____ + _____ = _____
